## About us

Cubix designs, produces, and installs the highest quality contract bedroom furniture and bespoke joinery for healthcare residential projects.

We manufacture exclusively for heavy usage contract projects, you can be assured that all furniture has the durability to withstand the arduous treatment typical of healthcare environments.

Whether choosing a selection from our healthcare ranges or a bespoke design for a public area you can trust Cubix to design, deliver and install quality goods to the highest standard.

Traditional craftsmanship fused with cutting edge manufacturing technology is the perfect formula for producing outstanding quality furniture. This, along with our meticulous attention to the finer details of both the product and its installation, is what differentiates us from many of our competitors.

## Design

Our experienced technical design team work closely with architects and interior designers to constantly value-engineer your specifications to ensure that every detail is considered to maximise the visual impact whilst ensuring the best return on investment.

Smart designs, functionality and a keen eye for detail are pivotal to everything we do at Cubix. We produce comprehensive scaled working drawings for approval before production commences. For many of the architects and designers we work with, this facility saves them a lot of valuable time, assured in the knowledge that they are in safe hands.

## Installation

Cubix installation teams are all well qualified joiners who take great pride in their work and maintain a keen eye for detail. This experience reflects in our quality of workmanship and in the speed of installation to minimise expensive down-time. Our fitting teams continue to build first class installations within challenging timescales.

THE FLEUR COLLECTION

## Blossom

The traditional design of the Blossom combines style and refinement with functionality, offering a large variety of different storage formats whilst boasting graceful character. Storage options are plentiful with a variety of formats on offer including deep drawers and shelving which is ideal to display personal belongings. The up stand to the back of the desk is an optional feature, an attractive way of neatly concealing plug sockets. The choice of finish on the range will be key to defining its individual character.

THE FLEUR COLLECTION

## Clover

The Clover range has been specifically designed to be user friendly for those suffering with dementia, and combines sophisticated style with practicality. Various simple but effective design elements have been added to assist users in their day to day activities. These include visibility panels that have been used on the wardrobe and bedside doors in order to see the contents inside. Also, cut outs in the drawers have been included in addition to handles for those with limited fine motor skills. These elements as well as its robust structure makes this an ideal furniture suite for a healthcare or care home environment.

## Heather

An attractive range that blends a modern robust structure with classic detailing, creating a charming furniture suite ideal for residential healthcare environments. The panelled doors and drawers combined with the crown cut design to the top plinth and arch detail to the lower offers ornate style to achieve an overall graceful collection, whilst offering efficient usage of space with various storage options. Available in either MFC or veneer and in a range of finishes to meet your specific requirements.

## Jasmine

A charming, versatile bedroom suite available in a range of finishes. As with all of our furniture, this range can be customised to your own requirements with a choice of finishes available. Door, drawer and shelving fronts can be produced to either match the outer carcass or in contrast as pictured to give more depth to the design and accentuate its clean sleek lines. A variety of storage options are offered in this range in order to maximise the available footprint. This includes deep drawers as well as internal and external shelving.

## THE FLEUR COLLECTION

### Lily

The Lily range is a stylish combination of a classic bedroom suite design with an overall contemporary aesthetic that offers style as well as functionality. It is available in one single finish throughout or as pictured with a contrasting finish to the doors, drawers and shelves giving stylish definition to its solid lines. Each piece has been designed to maximise the available footprint and offers a variety of low level and high level storage formats. As with all of our ranges, we can produce each piece in either MFC or veneer depending on your budget and specific requirements.

# Bespoke

We cater for all aspects of bespoke joinery typical of healthcare public interiors, such as reception desks and canteen server units.

Our experienced product designers work closely with architects, interior designers and clients with their bespoke design briefs. We produce 3D visuals and prototypes to ensure everyone is happy with the design prior to production.
